Farm Burger wants you to think about your burger
- what it is + where it's from.

Our cows are
fattened + finished
on sweet grass, never
fed antibiotics or
hormones, + always
humanely raised
+ handled.

Our burgers are
made from
100% grassfed beef
that is dry-aged
+ ground fresh.

We work with
local farmers near
each of our locations.
We define success
by the strength
of sustained
relationships.

Our food makes ethical eating easy.

GOOD FOOD, GREAT PEOPLE

Love our food, and want some help with your party too? We can handle that. Get your favorite Farm Burger food and our friendly staff.

SERVERS

All of our servers come directly from the Farm Burger family, meaning they care about quality food and service as much as you do. Your catering team will set up your event and help guests navigate a Burger Bar. We can handle portion control, keep the lines moving along and keep the space neat and tidy all party long. We bus tables, pack up leftovers, take out the trash and everything in between so you can kick back and enjoy the party. While we can't provide alcohol, we can provide bartenders.

CHEFS

Let us bring the kitchen to you. With this option, we provide a full staff of servers and chefs, grills, fresh ingredients and just about anything else you might need for a mouth-watering menu. This is the best option for weddings, large corporate events or that special event to impress your friends with super fresh food, a cookout atmosphere and impeccable staff taking care of all your needs. Because our expert chefs are onsite, you get to select from an expanded menu to wow even the most discerning of your guests.

We are following advice from the CDC and food industry experts.
